Summary

DevOps / Platform Engineer at Dell Technologies. I help teams ship faster by turning fragile infra into reliable delivery paths — CI/CD, automation, and platforms developers actually want to use. Reduced system failures 50% through better platform practices. GitLab, CI/CD, Kubernetes. Based in Bengaluru.

Experience

DevOps / Platform Engineer

Software Engineer 2 - DevOps · Dell Technologies · Bengaluru · Jun 2019 – Present

- Administered GitLab for 200+ engineers; optimized 50+ CI/CD pipelines reducing deployment time by 65%.
- Implemented ArgoCD GitOps + Kubernetes (EKS) for 15+ microservices with zero-downtime releases.
- Embedded DevSecOps: Trivy, SonarQube & OWASP scanning in pipelines; remediated 200+ critical vulnerabilities.
- Built Terraform IaC modules for multi-account AWS infrastructure & monitoring (Prometheus/Grafana/ELK).
- Reduced system failures 50% through better platform practices.

Key Achievements

- Internal award for DevOps automation excellence & infrastructure optimization (2024).
- Reduced system failures 50%; cut CI/CD deployment time by 65% and reduced failed deploys by 80% via GitLab + ArgoCD GitOps.
- Embedded automated scanning (Trivy/Sonar) achieving 95%+ vulnerability remediation SLA.
- Active technical blogger (Medium) plus internal workshops on DevOps, Linux & Kubernetes best practices.
- Architected GitOps platform and Terraform modules adopted across multiple teams.
